

ARRL RADIOGRAM A How To

EmComm East 2011

By John KB2SCS

kb2scs@arrl.net

With excerpts from the
W3YVQ.v1.04-5/02 PSCM APP.-B NTS MPG-MESSAGE FORMAT
ARRL publication FSD-3 (5/05)

What we will learn today:

- What does the ARRL Radiogram Form Look Like?
- The Parts of the ARRL Radiogram Form.
- How to fill in the different Parts of the form.
- What are the “Rules”?
- What are ARRL Numbered Radiograms?

THE AMERICAN RADIO RELAY LEAGUE

RADIOGRAM

VIA AMATEUR RADIO

NUMBER	PRECEDENCE	HX	STATION OF ORIGIN	CHECK	PLACE OF ORIGIN	TIME FILED	DATE
--------	------------	----	-------------------	-------	-----------------	------------	------

To:

THIS RADIO MESSAGE WAS RECEIVED AT:

AMATEUR STATION:	DATE:
NAME:	
STREET ADDRESS:	
CITY, STATE, ZIP:	

TELEPHONE NUMBER:

Sig:

REC'D	FROM	DATE	TIME	SENT	TO	DATE	TIME
-------	------	------	------	------	----	------	------

A licensed Amateur Radio Operator, whose address is shown above, handled this message free of charge. As such messages are handled solely for the pleasure of operating, a "Ham" Operator can accept no compensation. A return message may be filed with the Ham delivering this message to you. Further information on Amateur Radio may be obtained from ARRL Headquarters, 225, Main Street, Newington, CT 06111.

The American Radio Relay League, Inc. is the National Membership Society of licensed radio amateurs and the publisher of QST Magazine. One of its functions is promotion of public service communication among Amateur Operators. To that end, The League has organized the National Traffic System for daily nationwide message handling.

The ARRL Radiogram Form.

The Preamble

NUMBER	PRECEDENCE	HX	STATION OF ORIGIN	CHECK	PLACE OF ORIGIN	TIME FILED	DATE
--------	------------	----	-------------------	-------	-----------------	------------	------

NUMBER

The Number field is any number the creating station wants. Most ops start each year at 1 and continue sequentially. No Receiving station may change the number.

The Preamble

NUMBER	PRECEDENCE	HX	STATION OF ORIGIN	CHECK	PLACE OF ORIGIN	TIME FILED	DATE
--------	------------	----	-------------------	-------	-----------------	------------	------

PRECEDENCE

How important is this message?

The Precedence answers the above question.

Emergency: Highest Precedence: Life or Death:Property Loss

The Word EMERGENCY is always spelled out.

Priority: Next Highest Precedence: Not Life or Death but
Quality of life. Always sent as the letter "P"

Routine: Next Highest Precedence: General information msg.
Always sent as the letter "R"

Welfare: Next Highest Precedence: Messages containing
Information about the fate of loved ones inside
the disaster area to those outside the disaster area.
Always sent as the letter "W"

The Preamble

NUMBER	PRECEDENCE	HX	STATION OF ORIGIN	CHECK	PLACE OF ORIGIN	TIME FILED	DATE
--------	------------	----	-------------------	-------	-----------------	------------	------

HX

Handling Instructions

OPTIONAL. Do not use handling instructions unless a particular need is present. Handling instructions are used to instruct the relaying and/or delivering operator to handle the message according to the following codes (Refer to ARRL CD 218, pink card.). If used, handling instructions must stay with the message to the point of delivery

The Preamble

NUMBER	PRECEDENCE	HX	STATION OF ORIGIN	CHECK	PLACE OF ORIGIN	TIME FILED	DATE
--------	------------	----	-------------------	-------	-----------------	------------	------

STATION OF ORIGIN

Station of Origin

Is simply the call sign of the operator who is entering the message into the National Traffic System (NTS)

The Preamble

NUMBER	PRECEDENCE	HX	STATION OF ORIGIN	CHECK	PLACE OF ORIGIN	TIME FILED	DATE
--------	------------	----	-------------------	-------	-----------------	------------	------

CHECK

The Check is where all the confusion comes in.
All the confusion can be eliminated if you remember the following:
The check is nothing more than the **count of the words that are in the message body.**

You do not count the words in the Preamble
Nor the Address nor the Signature. Just the word count of the
Message body goes into the check.

The Preamble

NUMBER	PRECEDENCE	HX	STATION OF ORIGIN	CHECK	PLACE OF ORIGIN	TIME FILED	DATE
--------	------------	----	-------------------	-------	-----------------	------------	------

PLACE OF ORIGIN

The Place of Origin is not necessarily the same location as the Station of Origin. Here are two examples:
KB2SCS lives in the town of Islip. KB2SCS creates a Radiogram for himself.

In this case the Station of Origin is KB2SCS and the Place of Origin is Islip.

KB2SCS lives in the town of Islip. KB2SCS brother who lives in Rochester dictates a Radiogram that KB2SCS will create.

The Station of Origin is KB2SCS. The Place of Origin is Rochester.

The Preamble

NUMBER	PRECEDENCE	HX	STATION OF ORIGIN	CHECK	PLACE OF ORIGIN	TIME FILED	DATE
--------	------------	----	-------------------	-------	-----------------	------------	------

TIME FILED

The OPTIONAL "TIME FILED" is used only when filing time has some importance relative to the precedence, handling instructions, or meaning in the text. TIME FILED is the time when the message is created by the station of origin. The time figures are in the 24-hour format followed by the letter "Z" to denote UTC time, or local time, as in "0215Z" or "2215EDT". It is acceptable to specify local time as "L", as in 2215L.

When there is no L or Z then UTC is assumed.

The Preamble

NUMBER	PRECEDENCE	HX	STATION OF ORIGIN	CHECK	PLACE OF ORIGIN	TIME FILED	DATE
							DATE

Month must be used on all messages. (If TIME FILED is used, this date must agree with that time); This entry is the month in which the message is created and is written in the preamble as the three letter abbreviation: The month/day is assumed to be UTC unless marked otherwise by a time. The abbreviations:

JAN, FEB, MAR, APR, MAY, JUN, JUL, AUG, SEP, OCT, NOV, DEC.

The full name of the month is spoken when transmitting the preamble on voice. On CW, only the three letters are sent.

The DAY FILED is the day of the month on which the message was originated and must be used on all messages. (If TIME FILED is used, the date and time must agree). The day is written in figures only, no leading zeros. On voice, two digit days are spoken as two separate digits ("one seven" rather than "seventeen", etc.). The month/day is assumed to be UTC unless marked otherwise by a time. Example: 0215Z JUL 13, 2215EDT JUL 12, or 2215L JUL 12 (all three filing times/dates are equivalent). "7/13" and other variations are not used

To:

TELEPHONE NUMBER:

The Address Block. The Address Block contains the same Information as the address on a envelop.
Name, House or Apt street address, City, State, Zip
If the Radiogram is created in a non emergency situation then a phone number is needed. During an Emergency a phone number is not needed. If the Radiogram can be delivered by telephone during an Emergency then Amateur Radio is not needed for this particular Emergency.

The Message Area: You will notice that the message area is divided into 25 separate word spaces. This accomplishes two Purposes:

- 1) Radiograms are to be the classic 25 words or less.
- 2) Dividing up the space makes it easier to count the words for the check.

Sig:

The Signature line: This is just simply where the author of the message signs his or her name.

Note: salutations such as Love or 73 do not go into the Signature Line. Instead they go inside the message text and therefore are counted as part of the check.

The Rules

There are rules on the proper way to fill in the message area of a radiogram form.

The best way to pass on these rules is by example.

Number 1	Precedence R	HX	Station of Origin KB2SCS	Check 24	Place of Origin ISLIP	Time	Date 'DEC 12'
--------------------	------------------------	-----------	------------------------------------	--------------------	---------------------------------	-------------	-------------------------

An easy rule to remember about counting word groups: ANY GROUP OF ONE OR MORE CONSECUTIVE CHARACTERS WITH NO INTERRUPTING SPACES, WITH A SPACE BEFORE IT AND AFTER IT, IS COUNTED AS ONE GROUP.

These groups could be all letters, all numbers or letters and Numbers mixed together.
Phone numbers are to be written as area code space exchange Space number.

Number 1	Precedence R	HX	Station of Origin KB2SCS	Check 24	Place of Origin ISLIP	Time	Date 'DEC 12'
--------------------	------------------------	-----------	------------------------------------	--------------------	---------------------------------	-------------	-------------------------

ARRL NUMBERED RADIOGRAMS

Are a short hand method. A way of packing more information in the 25 word limitation.

Number	Precedence	HX	Station of Origin	Check	Place of Origin	Time	Date

EIGHT Need additional _____ mobile or portable equipment for immediate emergency use.

NINE Additional _____ radio operators needed to assist with emergency at this location.

THANK YOU

Next is the RadioGram software demonstration.

RadioGram is an electronic version of the ARRL Radiogram form.

RadioGram follows all the ARRL rules such as making a period either a X or R or the word DOT.

RadioGram also computes the check for you.

The software also has all the ARRL Numbered Radiograms built in.
